Range expansion - Lubricants & Ancillary Products

New Grades

Vapormatic in partnership with Exol Lubricants, the largest independent lubricants company in the UK, has added new lubricant grades and additional pack sizes for some of its existing products recognising market needs, changing requirements and new opportunities for customers.

112 new lubricants and ancillary products

Vapormatic's successful programme includes 112 new lubricants and ancillary products which include engine, transmission, gear and hydraulic oils, greases, antifreeze/coolants and AdBlue® primarily for All Makes of agricultural machinery. Products are suitable for the latest Fendt 1000 tractor series, Case Maxxum, Puma, Optum and Quadtrac series, Massey Ferguson 5S, 6S, 7S, 8S, JCB Fastrac's and telehandlers as examples.

Various sizes available

Lubricant products are available in one litre plastic bottles, 5 litre plastic cans, 20 litre plastic drums, 20 litre bag in a cardboard box, 25 litre steel drums, 205 litre steel drums, IBC's and as bulk pump off deliveries allowing for customer choice and preference. (Some exceptions may apply. AdBlue® pack sizes vary.)

Exol manufacture and supply a range of high-quality lubricants and associated products to industry, agriculture, transport, automotive, and garage sectors. Exol, utilizing its experienced technical department and laboratories, are committed to a programme of continuous development to ensure state-of-the-art lubricants are available to all sectors of the lubricant market both now and in the future.

All Vapormatic quality replacement parts carry an industry leading **12 month parts and labour warranty**. For further information on specific items please visit www.vapormatic.com
